

Communications CAD Support Officer

POSITION DESCRIPTION FORM

Region / Portfolio:

State Intelligence and Command

Position Description Number:

227222

Directorate / Command / District / Division:

State Communications Division

Level:

Level 4

Business/Work area:**Employment Conditions**

Industrial Agreement/Award: Current PSA, PSCSAA and if applicable Agency Specific Agreement

Work Pattern: Monday – Friday (Day Work): May be required to work outside normal operating hours

Location: Midland

This position may be exposed to sensitive or disturbing content.

Position Objective

Supports and maintains data management, recording and reporting systems and servers associated with the Computer-Aided Dispatch (CAD) and its associated applications. Provides operational support and assistance to frontline officers and staff.

Role of Work Unit

The State Communications Divisional Office provides strategic oversight of all the Western Australia Police Force capabilities relative to urgent (000) and non-urgent (131444) calls, initiating incident response, whilst providing influence over supporting technologies. Primary business units include the Police Assistance Centre, Communications Division Support, CAD Support and Capability Unit (CSCU), Crime Stoppers, and Interagency Collaboration Program (ESRN/CAD Replacement Project).

Reporting Relationships

This position reports to:

- CAD Support and Capability Manager, Level 7

Direct reports to this position include:

- Nil

Total number of positions under control: Nil

Position Title: Communications CAD Support Officer	Level: Level 4	Position Number: 227222
---	-------------------	----------------------------

Key Accountabilities

1 Data Management and System Administration (70%)

- 1.1 Supports the daily operation of the communications-based systems, including the WA Police Force CAD and Mobility systems, Automated Vehicle Location (AVL) and Automated Resource Location (ARL) systems, to maintain security and data integrity within the CAD ecosystem.
- 1.2 Maintains application management within the CAD ecosystem.
- 1.3 Supports the integration of interfaced systems within CAD ecosystem (encompassing the Mobility, AVL and ARL systems).
- 1.4 Provides support in the back-up and archiving of critical CAD system data and implements the database maintenance plan.
- 1.5 Carries out routine system tasks and checks and assists with detecting issues in CAD and the relevant communications systems.
- 1.6 Assists in the management and reporting on fault and failure event details and assists with evaluating risks to the provision of service.
- 1.7 Supports improvements to CAD, Mobility, AVL and AVR systems by assisting with plans, procedures and processes.
- 1.8 Participates in communications specific training.
- 1.9 Liaises with internal and external groups to help with access and use of CAD and related systems for ongoing improvements.
- 1.10 Liaises with software suppliers regarding upgrades and implementation of software releases specific to CAD and associated systems.
- 1.11 Assists with implementing changes within the communications environment.
- 1.12 Manages call sign allocation and administration within the CAD ecosystem, ensuring accuracy, consistency and compliance with operational requirements.
- 1.13 Provides support and assistance to all the WA Police Force personnel.

2 Research, Assessment and Reporting (25%)

- 2.1 Carries out testing of system enhancements and reconfigurations.
- 2.2 Supports the team in preparing statistical reports utilising information from CAD and associated systems, in response to internal and external requests.
- 2.3 Provides support in the design and implementation of CAD and associated systems and equipment/networks.
- 2.4 Undertakes project activities, including research and participation as a project team member.

3 Other (5%)

- 3.1 Understands and complies with information security policies and procedures to mitigate areas of information security risk by ensuring the integrity, confidentiality, availability and security of information holdings/systems.
- 3.2 Demonstrates and advocates a high level of ethics and integrity in accordance with the agency's professional standards and Code of Conduct including reporting wrongdoing.
- 3.3 Undertakes other duties as directed.

Position Title: Communications CAD Support Officer	Level: Level 4	Position Number: 227222

Work Related Requirements

Essential

Communication skills

Context in which work related requirements will be applied and or general standard expected.

Participating in meetings. Preparing reports, documentation and general correspondence. Liaising with internal and external stakeholders in a customer focused manner.

Planning and organisational skills

Managing, scheduling, organising and planning tasks to be undertaken and completed within deadlines.

Conceptual and analytical skills

Conceptualising and analysing issues to provide advice and evidence-based recommendations. Thinking laterally and identifying scope for improved practices. Researching, evaluating findings and presenting possible solutions with minimal direction.

Computer skills

Using Microsoft based software applications and relevant technical applications. Applying a basic understanding of MS SQL Server, MS Visual Studio, Excel, Power BI, Visual Basic.

Desirable

Knowledge of integrated command and control systems and related software

Recognising communication operational procedures and methodology within an emergency service environment, CAD information systems, reporting software, telephony, radio, GIS, GPS and AVL sub-system methodology. IT Service Management and change management software (ServiceNow).

Capability Framework

The framework is intended to support staff and supervisors through the performance cycle and identify core competencies relevant to the rank and/or classification level.

Leadership Context

We believe all our people are leaders irrespective of their role. We consider this as critical to our success and, to support this, we have adopted [Leadership Expectations](#) which provides a common understanding of the mindsets and expected behaviours required of all our employees and the public sector.

The leadership context for this role is **Personal Leadership**.

Certification

These details are an accurate statement of the duties, responsibilities and other requirements of the position.
